Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 16-18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Regarding to claim 16, the claim is rejected because it is directed to computer program or software per se.

According to Fig.3 and the corresponding disclosure in the specification the recited modules in the claim, including the database, the analysis and redirecting module comprise only software embodiment.
